

A horizontal number line is shown. A tick mark is placed at the midpoint, labeled $\frac{1}{2}$. The segment from 0 to $\frac{1}{2}$ is labeled '1' below the line. The segment from $\frac{1}{2}$ to 1 is labeled '2' below the line.

A horizontal number line with arrows at both ends. There are four major tick marks labeled 3, 4, 5, and 6 from left to right. There are also minor tick marks between each major tick mark, representing half-integers.

11

0

14

A horizontal number line with a tick mark at 0 and a tick mark at 15.

56

Diagram illustrating a sequence of numbers (7, 9, 10, 9, 10, 9, 7, 9) arranged in a grid-like structure. The numbers are placed at the intersections of horizontal and vertical lines. A curved line connects the two '9' numbers in the top row. The bottom row contains a '0' at the first intersection.

57

Diagram illustrating a sequence of numbers and arcs across five horizontal lines:

- Line 1: 7 — 9 — 7 — 2 — 5 — 12 — 10
- Line 2: 10 — 3
- Line 3: 7 — 7 — 2
- Line 4: 7 — 0 — 4
- Line 5: 9

Connections (arcs) are shown between the following pairs of numbers:

- 7 (Line 1) and 9 (Line 1)
- 10 (Line 2) and 3 (Line 2)
- 7 (Line 3) and 7 (Line 3)
- 0 (Line 4) and 4 (Line 4)

The diagram shows a 16-bit bus system. The top 8 lines are data lines, labeled 0-7 on the right. The bottom 8 lines are address lines, labeled 0-7 on the left. The bus is divided into two 8-bit sections, 72 and 73, by a vertical line. The data lines are labeled 0-7 on the right, and the address lines are labeled 0-7 on the left.
